Royal Green Camu Camu

Camu Camu contains the highest amount of Vitamin C in fruit known on earth. It offers Vitamin C in a 'full spectrum' form together with hundreds of extra plant nutrients like bioflavonoids, vitamins, enzymes, minerals and amino acids. In example compared to an orange, Camu Camu offers up to 30 times more Vitamin C, 10 times more Iron, 3 times more Niacin, 2 times more Riboflavin and 50% more Phosphorus. Royal Green Camu Camu offers 100% pure Camu Camu of the highest quality and concentration available (30:1). This unlike many conventional brands that often blend Camu Camu with manioc or maltodextrin.

Is the Vitamin C you are using really natural?

Check whether your Vitamin C is not synthetic ascorbic acid or Ester C. Despite many marketing claims these forms of Vitamin C are not plant based or natural, but synthetic. Royal Green offers with Camu Camu a natural lternative, the richest source of 100% plant based Vitamin C to support the immunity and energy.

Royal Green uses absolutely no chemicals, preservatives, synthetic sweeteners or flavour enhancers. Naturally gluten free. Experience the difference now!
